**BABEK**  
TO break up Malaria by giving massive doses of quinine is merely substituting one disease for another, while calomel and other drastic drugs merely irritate the liver and bowels.  
Combinations of arsenic, ergot, and iron falsely stimulate without producing any permanent beneficial effect; in fact, tend to complicate the disease.  
Babek contains no quinine, arsenic, or deleterious drugs. The successful use of this preparation in the treatment of malarial diseases for over 25 years by thousands of sufferers proves it to be the most reliable remedy.  
Restored His Health.  
Gentlemen: It gives me pleasure to recommend your Babek as a sure cure for Malaria Fever. I suffered for several months with this distressing disease. I had very high fever, was nervous, had no appetite, and could not sleep. A friend told me of your Babek, and I have taken the bottles, and I feel better than I have in a long time. I also consider your medicine a sure tonic for a rundown constitution.
